

Differences Between Roles

Team members

Host

They can **create, set up, start** and **end** an event. They can also send invites from Livestorm, and delete registrants.

Moderator

They can **enter** the room before the event starts, they can **view** the Event dashboard and **moderate** events.

Team members have an account on Livestorm.

Guest speakers

They can **enter** the room before the event starts, and **moderate** it.

They receive an email with a link to the Event they are assigned to.

Guest speakers don't have access to Livestorm, only to the event room.

Attendees

They can **watch** the event and **interact with others via chat or questions once the event is live**.

They cannot see each other, share webcam or audio. They can be invited "on stage" by T.M. or G.S.

Differences Between Roles (2)

This is a quick recap of who can do what during the event:

	Host	Moderator	Guest speaker	Attendee
Access the dashboard?	✓	✓	✗	✗
Access event Settings?	✓	✗	✗	✗
Send Email Invites?	✓	✗	✗	✗
Enter the room before the event starts?	✓	✓	✓	✗
Start or end the event?	✓	✗	✗	✗
Share their webcam/screen (join stage)?	✓	✓	✓	✗
Invite someone on stage?	✓	✓	✓	✗
Remove someone from stage?	✓	✓	✓	✗
Control a media on stage? (passing PDF slides, moving video player)	✓	✓	✓	✗
Remove a presentation from stage?	✓	✓	✓	✗
Moderate chat, questions?	✓	✓	✓	✗
Block/unblock a participant from the room?	✓	✓	✓	✗
Block/unblock a participant from the dashboard?	✓	✓	✗	✗
See chat messages from anyone?	✓	✓	✓	✓
Ask questions?	✓	✓	✓	✓
Answer questions?	✓	✓	✓	✗
"Live answer" a question?	✓*	✓*	✓*	✗
See Private Questions?	✓	✓	✓	✗**
Create and send Polls?	✓	✓	✗	✗
Answer Polls?	✗	✗	✓	✓
See the People tab when hidden?	✓	✓	✓	✗
Send a CTA?	✓	✓	✓	✗
Delete registrants?	✓	✗	✗	✗
Export the registrants, chat, questions?	✓	✓	✗	✗

Technical Requirements and Best Practices

- **Browser : we strongly recommend you to use Google Chrome** 
- Close open tabs on the browser, pause your Google Drive sync or any other bandwidth-consuming apps during your event.
- [Run the connectivity test](#) in the Event Room before the event starts.
- If you have connectivity issues, please email enterprise@livestorm.co and share your screenshots of the connectivity test.
